Ontario Marina Directory 1993

A quarter million lakes, countless rivers and bays beckon. For pleasure boaters, Ontario is paradise. Combine the splendour of unspoiled waterways with the friendly faces and intriguing poke-about spots along your way. Then find safe harbour at any of the hundreds of marinas waiting for you at day's end.

This booklet is your guide to paradise, listing the facilities and services (including rentals) available at Ontario marinas. For more information, call the Ontario Marina Operators Association or Ontario Travel at the numbers listed.

Enjoy Your Boat

Ontario has superb waterways for boating and we invite you to join us in this natural paradise. We ask you to join in keeping our waterways safe, clean and appealing. That way, everyone can enjoy boating as much as you do!

Keep our water clean

Clean water means better boating. Boating and Marine Regulations prohibit the discharge of sewage and garbage into Ontario waters. All toilet waste (treated or not) must be retained on board until reaching a shore-based pump-out facility.

Marinas with pump-out facilities are identified in these listings. The Ministry of Environment folder "Pump-Out Stations" also points out pump-out locations and is available from:

Ministry of Environment,
Central Region Office
7 Overlea Boulevard, 4th Floor
Toronto, Ontario M4H 1A8
(416) 424-3000

Make sure your boat is properly equipped with holding tanks for sewage. Ontario Ministry of Environment staff inspect boats and issue stickers to show that boats have passed inspection. Violators are subject to prosecution under the Provincial Offenses Act. Portable toilets are not permitted in Ontario unless adapted for shore-based disposal.

Stay tuned for good weather

Because it can change quickly, small vessel operators should check weather conditions before leaving port and monitor weather conditions regularly. This means being aware of sources of local weather information.

Weather reports are available from daily newspapers and from radio broadcasts on all stations. Boat operators should acquaint themselves with the times that weather information is broadcast in their cruising areas.

Marine weather broadcasts

"Radio Aids to Marine Navigation" includes information on marine weather broadcasts. The edition covering Ontario's waterways is subtitled Atlantic and Great Lakes (T51-4-E) or in French (T51-4-F). Published once per year, this guide is available for a nominal fee at many lock stations or by mail from:

Minister of Supply & Services Canada
Canadian Government Publishing Centre
Ottawa, Ontario K1A 0S9
(819) 997-2560

A second pamphlet titled Marine Weather Service - Great Lakes, is available free of charge and may be ordered by mail from:

Atmospheric Environment Service
Port Meteorological Office
25 St. Clair Avenue East, 3rd Floor
Toronto, Ontario M4T 1M2
(416) 973-5809 or (416) 336-6520
Fax (416) 336-4797

Refuel with care

When refuelling, take precautions. It could save someone's life...maybe yours. Make sure the engine and all electrical circuits are off. Douse any open flames, including pilot lights and close ports and deck hatches. Ensure everyone is ashore and no one is smoking nearby.

Remember that gas fumes can build up in the bilge, so before you start the engine always turn the blower on for at least five minutes. Unless you clear the fumes, you'll be inviting an explosion or fire.

Double-check emergency gear

Life saving and emergency gear are important items. From life jackets and paddles to fire extinguishers and flares, emergency gear must be on board and in a good state of repair. Someone's life may depend on it.

Make sure you're easily identified

All boats powered by a motor 7.5 kW (10 HP) or more must be licensed and the

licence number clearly marked on both sides of the bow. Out-of-province licences are acceptable. Pleasure boats 5 m (16 ft. 5 in.) long or under, powered by an outboard motor 7.5 kW (10 HP) or more, must carry a plate stating the maximum load and kilowatts recommended for it.

Licences are free and capacity plates cost \$2.50. Starting summer 1993 the price will be \$4.50 and the requirement for a capacity plate will apply to every vessel 6 metres or more that is or may be powered by an outboard motor 7.5kW (10hp) or more. Licences and applications for capacity plates are available from any Canadian Customs office or from:

Register of Shipping, Custom House,
Revenue Canada,
Dominion Public Building
1 Front Street West, Box 10, Station A,
Toronto, Ontario M5W 1A3
(416) 973-8135

Bring your boat

Pleasure craft may enter Canada by trailer or under their own power. Customs officers are stationed at all highway border crossings and at harbours as indicated in the Guide to Federal Harbours (Ontario) — see "Getting Around With Ease" for source. A customs officer will issue a permit on entry which must be returned on departure as proof that the boat has left the country.

Try out the canals

The navigation season on the Trent-Severn Waterway and Rideau Canal is traditionally mid-May until mid-October. These historic canals are operated by the Canadian Parks Service of Environment Canada. Canal vessel permits, including lockage, overnight mooring and boater camping permits, may be purchased for a fee at lockstations during the navigation season. Canadian senior citizens who own and operate a vessel are eligible for discounts on lockage permits. These and other details are fully outlined in "Historic

Canals - Fees and Hours of Operation, 1993" which is available with other free canal publications from:

Communications, Ontario Region
Canada Parks Service
111 Water Street East
Cornwall, Ontario K6H 6S3
(613) 938-5866

The St. Lawrence Seaway Authority operates locks from early April to mid-December. A passage toll of \$10. per lock is charged for passage of pleasure vessels. Further information is available from the Pleasure Craft Guide or by contacting the:

St. Lawrence Seaway Authority
360 Albert Street
Ottawa, Ontario K1R 7X7
(613) 598-4614

The Sault Ste. Marie Canal, operated by the Canadian Parks Service, is closed to navigation. Instead, pleasure vessel operators may lock through the Soo locks of the St. Mary's Falls Canal on the U.S. side, free of charge, from April to mid-January. For information contact:

U.S. Army Corps of Engineers
Detroit District, Public Affairs Office
P.O. Box 1027, Detroit, Michigan 48231
(313) 226-4680

Publications with more technical information about navigation are available by mail from:

Distribution Centre, Environment Canada
Place Vincent Massey Building
351 St. Joseph Boulevard, 6th Floor
Hull, Quebec K1A 0H3
(819) 997-3736

Follow rules of the road

"Boating Restriction Regulations" defines areas where boats are prohibited, where speed limits are in effect and where water-skiing is prohibited. It also summarizes some boating laws. For a copy contact:

Ministry of Natural Resources
Office of Recreational Boating

6th Floor, 90 Sheppard Ave. East
North York, Ontario M2N 3A1
(416) 314-1090

A new shoreline speed zone in Ontario restricts all power-driven vessels to 10km/h or less within 30 metres of shore. This restriction does not apply:

- in areas previously posted with a shoreline speed restriction
- in buoied channels and canals
- on rivers, or sections of rivers, less than 100 metres in width
- to vessels towing a person on waterskis or any similar equipment provided the vessel operates perpendicular to the shore, or is operated within a buoied area

where such operation is permitted.

Know the laws - keep boating safe

In Ontario, it is against the law to operate a boat or water skis, or other towed object in a way that is dangerous to the public, or to tow a person when there is no one (other than the driver) keeping watch on the person being towed.

The law prohibits consumption of alcohol in other than a residence or licensed premises. Driving motorized vehicles, including boats, while impaired and failing to stop at the scene of an accident are also illegal.

Getting Around With Ease

Aids To Navigation

The Aids to Navigation service for Ontario waterways is administered by the Canadian Coast Guard (CCG) which is part of the federal Department of Transport. The system of fixed, floating and electronic aids makes it safer for everyone to use our waterways. The system should be used while referring to charts and related publications.

All CCG Aids to Navigation conform to the rules for the IALA system "B" (red right returning, starboard). The system uses a combination of lateral and cardinal marks. For details refer to the CCG publication "Canadian Aids to Navigation System," (TP-968E) and in French (TP-968F). This guide explains the buoyage system, light flash characteristics, fog signals and electronic aids services. It is available free of charge from:

Canadian Coast Guard (EMA)
1 Yonge Street, 20th Floor
Toronto, Ontario M5E 1E5
(416) 973-2162.

The Hydrographic Service: Nautical charts - essential to all boaters

The Charts and Publications Regulations require all vessels (not propelled by oars) to have on board, maintain and use appropriate charts, tide tables, sailing directions, list of lights and other nautical publications.

Catalogues of nautical charts and related publications (including price lists) may be obtained free of charge from:

Hydrographic Chart Distribution Office
Department of Fisheries and Oceans
1675 Russell Road, P.O. Box 8080,
Ottawa, Ontario K1G 3H6
(613) 998-4931 Fax: (613) 998-1217

The Canadian Hydrographic Service also maintains a network of authorized nautical chart dealers throughout North America. Names and addresses of dealers are included in the catalogues.

Mariners should refer to Notices to Mariners (Notmars) and Notices to Shipping (Notships) for up-to-date information.

Notmars is a weekly publication from CCG headquarters in Ottawa. It provides amendments and changes to charts and related publications and a free subscription may be ordered from:

Canadian Coast Guard
Vessel Traffic Services
Canada Building, 344 Slater Street,
6th floor, Ottawa, Ontario K1A 0N7
(613) 990-3037

Notships are promulgated in broadcast format over the CCG VHF radio network and in printed format on a twice weekly cycle. A free subscription may be ordered from:

Canadian Coast Guard Traffic Centre
105 Christina Street South
P.O. Box 2778, Sarnia, Ontario
N7T 2W1 (519) 337-6360.

The aids to navigation system is user monitored. If you notice discrepancies, or problems with any aids, you are asked to notify the Sarnia Traffic Centre, toll free 1-800-265-0237 or the nearest CCG radio station.

Additional navigational information may be found in the publication "List of Lights, Buoys, & Fog Signals, Inland Waters," (T-34-6-1991E) or in French (T-34-6-1991F). Cost is \$18.50 + \$3.50 shipping. This may be ordered from:

Canadian Communication Group
Publishing
Hull, Quebec K1A 0S9
(819) 956-4802

Marina listings

In addition to the listings in this booklet, another useful guide is the Guide to Federal Harbours (Ontario), available from:

Fisheries and Oceans,
Small Craft Harbours Branch
P.O. Box 5050, 867 Lakeshore Road,
Burlington, Ontario L7R 4A6
(416) 336-6020 Fax: (416) 336-4819

This guide includes a map showing the location of federal government harbours and a chart outlining their facilities.

Explore Ontario's Waterways

Ontario has six major waterways (for the purpose of this directory, divided into ten regions), offering superb boating, abundant scenery and recreational opportunities. Where will you go? Why not try the Rideau Canal, the Trent-Severn system, the mighty St. Lawrence Seaway, the majestic Great Lakes, the splendor of Georgian Bay or the natural beauty of Lake of the Woods.

The historic Rideau Canal route

In 1826, the possibility of war between Britain and the United States prompted construction of the Rideau Canal. Intended as a safe interior transportation route from Montreal to Kingston (via Ottawa), the threat of attack was over by the time the canal was opened in 1832.

Today, the canal is a 202 km (125 mile) chain of beautiful lakes, rivers and canal

cuts in a scenic corridor for pleasure boating. The canal features many historic buildings and structures, including 47 locks, all but three of which are still operated manually in the historic setting of 24 lockstations. Most Rideau Canal lockstations provide picnic facilities, washrooms, walking paths, drinking water, boater camping and docking facilities.

Under normal in-season conditions, there is approximately 1.52m (5ft.) of water in the centre portion of the navigation channel. This depth is maintained to accommodate vessels, when fully loaded and under power, whose draught does not exceed 1.22m (4ft.).

In July and August, interpretive programs at lockstations invite you to explore historical features and participate in on-site demonstrations, exhibits, special events and evening presentations. Interpretive program schedules, other canal publications, and small craft nautical charts are available from many lock-stations or the:

Rideau Canal
34 A Beckwith Street, South
Smiths Falls, Ontario K7A 2A8
(613) 283-5170

Travel Canada's original highway: The St. Lawrence Seaway

Long before the coming of the highway engineer, Ontario's native peoples, early settlers, traders and trappers travelled and traded by water. Later, a locking system was built to open the Great Lakes to ocean-going vessels. The St. Lawrence Seaway is a picturesque part of Canadian heritage.

Bigger craft (20 ft. or more) in length or 1,000 kg (1 ton) in weight can follow the main shipping route by using the Seaway locks. For safety reasons, smaller craft are not permitted in the Seaway locks but will still find plenty of places along the waterway for exploration and relaxation.

For further information on boating on the St. Lawrence Seaway, obtain the Pleasure Craft Guide and, if your vessel is 20 m (65 ft.) in length or more, the Seaway handbook as well. When you order either publication, specify length of craft. Both books are available free of charge from:

St. Lawrence Seaway Authority
360 Albert St., Ottawa, Ontario
K1R 7X7 (613) 598-4614

St. Lawrence Islands Park

The Thousand Islands lie scattered like jewels across a stretch of the St. Lawrence River where it meets Lake Ontario. Early Indian dwellers called the Region "the Garden of the Great Spirit". Today part of this garden has become Canada's smallest national park - St. Lawrence Islands.

Located between Kingston and Brockville, the park consists of 16 islands, parts of five other islands, numerous rocky shoals and a mainland base at Mallorytown Landing. Most islands have docks, trails, shelters and camping facilities.

During the summer watch for interpreters on the islands, at private and public campgrounds, and at special events throughout the area. To obtain a calendar of summer interpretive events, hours of operation and fee information contact:

St. Lawrence Islands National Park
Box 469, R.R. 3, Mallorytown, Ontario
K0E 1R0 (613) 923-5261
Fax (613) 923-2229

Ottawa River completes circuit

Hundreds of years ago, settlers and native peoples used the Lower Ottawa River as a main travel artery. This heritage lives on in the name given to the road skirting the river's edge: Voyageur Trail. The Ottawa River links boaters travelling the Kingston-Ottawa-Ontario/Quebec border-Kingston circuit.

Visit the islands of Georgian Bay

An incredible and lovely resort area, Georgian Bay has its very own national park, Georgian Bay Islands National Park. Rugged, picturesque islands and sparkling waters beckon.

Georgian Bay is mainly big-boat water. However, if you come with a trailered boat, try the stretch from Port Severn to Parry Sound, through the Thirty Thousand Islands. This area offers better protection and lots of scenic appeal.

For a map and detailed information on 59-island Georgian Bay Islands National Park, get in touch with:

Georgian Bay Islands National Park
Box 28, Honey Harbour, Ontario
POE 1E0 (705) 756-2415

Tackle the greatest lakes in the world

The five Great Lakes form a waterway extending nearly halfway across the North American continent. Bordered by Ontario on the north and the United States on the south (with the exception of Lake Michigan, which is entirely in the United States), the Great Lakes form the largest body of fresh water in the world.

From west to east, Lakes Superior, Michigan, Huron, Erie and Ontario descend from 182.9 m (600 ft.) to 74 m (242.8 ft.) above sea level, feeding the St. Lawrence River and Atlantic Ocean. Several canals and the St. Lawrence Seaway were constructed to allow lake navigation to make all lake ports accessible to ocean-going vessels.

Absorb the natural splendour of Lake of the Woods

Imagine 104,000 km (65,000 miles) of twisting, turning shoreline; a waterway dotted with 14,000 islands. That's Lake of the Woods, a region with natural splendour making it a mecca for the boating enthusiast. Come trailered and ready to launch or rent a boat when you arrive. Houseboats for overnight cruising or powerboats for early-morning fishing trips, launch ramps, cranes and assign-

ed dockage are all available.

Breathtaking scenery on the Trent-Severn Waterway

It all started with a small wooden lock at Bobcaygeon in 1833. Today, the Trent-Severn Waterway is a marvellous navigation route through the heart of central Ontario that can be enjoyed by car or by boat. Friendly towns, excellent fishing and wonderful scenery are all part of the Waterway experience.

There are 37 conventional locks between Trenton and Port Severn, and two flight locks at Healey Falls and Ranney Falls. Even more impressive are the two lift locks at Kirkfield and the highest hydraulic lift in the world at Peterborough. A spectacular marine railway at Big Chute has a giant travelling carriage that carries boats over a hill.

Picnic areas, washrooms, drinking water, boater camping, docking facilities and friendly staff are to be found at all lock stations along the system.

The Waterway's minimum navigational depth is 1.52m (5ft.). Boats drawing more cannot travel the entire Waterway. Any vessel with a draft of 1.52 m, or more, considering navigating the Waterway, must contact the office in Peterborough. To find out about fees, hours of operation, navigation chart prices and other publications contact:

Trent-Severn Waterway
P.O. Box 567
Peterborough, Ontario K9J 6Z6
(705) 742-9267 Fax: (705) 742-9644

ONTARIO

Working to Keep Boating Fun & Affordable

Ontario Marina Operators Association is the association of marine dealers working together since 1967 with a common goal of improving their ability to provide quality service to boaters in Ontario. Its members across Ontario are engaged in boat sales, service and storage. Support for the association's activities is provided by sponsoring and associate members who are mostly suppliers and manufacturers.

- car parking • washrooms & showers
- telephone • water • fuel • pump-outs
- groceries • stores for accessories
- ice • snack bars or restaurants
- camping and picnic grounds
- monitoring of CB and VHR channels
- repairs to wood and fibreglass boats, outboards, sterndrives and inboards

What the OMOA does for boaters

Promotes and encourages boating as great recreation for individuals and families alike.

Protects the best interests of boaters in continuing relationships with all levels of government.

Encourages among marina operators a sensitivity to the needs and interests of boaters.

Works to keep boating services affordable by encouraging competitive pricing and continued development of new and improved facilities.

Encourages the exchange of ideas and experiences among marina operators to provide more efficient boat handling and more economical servicing techniques.

Provides information to marinas wanting to expand and improve their services.

Provides information to boaters seeking direction about cruising in Ontario and availability of facilities.

Working for a better future

An OMOA Member Marina is always a welcome port of call. Look to helpful marina staff and a wide range of boating services to make your boating a safe, enjoyable experience. Most OMOA Members offer:

- overnight and summer dockage
- boat launching and haul-out ramps
- winterizing and winter storage
- boat and/or motor rentals • water taxi

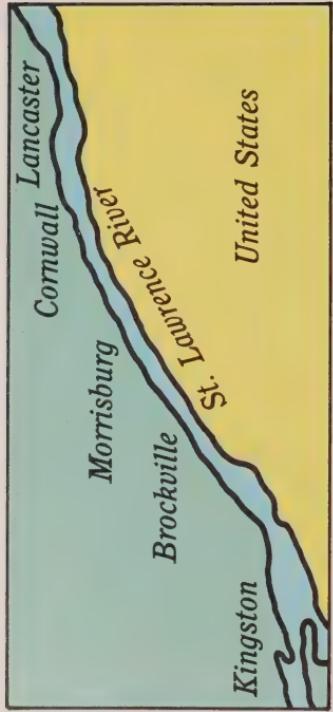

OMOA Map & Region Names

St. Lawrence River & Region

You can count on easy cruising with literally hundreds of snug anchorages in this picturesque area. The Thousand Islands is really more like 1300 islands. Not only are boaters served by numerous full-service OMOA member marinas, but an increasing number of government-operated park islands provide safe swimming and overnight moorings. Fishing boats, houseboats, power and sail boats are available for rent, and fine dining and entertainment are to be found throughout the area.

Rideau Canal - Ottawa River

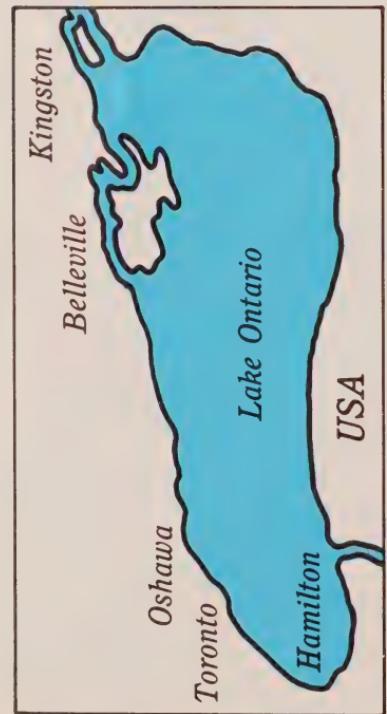

Both the Rideau Canal and Ottawa River are steeped in history - the former having military origins and the latter linked to the earliest days of Canada's logging industry. Completed in 1832, the Rideau System contains forty-nine locks and links the Ottawa and St. Lawrence Rivers by means of 200 km of lakes and channels. Long navigable stretches of the Ottawa River meander through tranquil countryside and prosperous towns.

Lake Ontario & Region

Boating on Lake Ontario is limitless. As part of the St. Lawrence Seaway, you have access to thousands of miles of waterways. Cruising in this area is a varied experience as you pass large metropolitan areas and towns and also large tracts of uninhabited shoreline. Salmon fishing has become very popular in recent years.

Detroit River, St. Clair River, Lake Huron

These are international waters and popular with boaters and fishing folk alike. On shore, the lake and riverside towns of Ontario offer live theatre, museums, wineries and racetracks. Antiques, crafts and farm produce are often a short walk from a welcoming dock. A large number of OMOA member marinas have built a fine reputation for catering to transient as well as seasonal boaters.

Georgian Bay, North Channel & Region

This is a rugged landscape with challenging sailing and cruising waters. The 30,000 Islands provide miles of protected cruising and breath-taking scenery. If lying on sun-drenched rock masses or sandy beaches does not appeal, you have the option of diving to explore and photograph century-old wrecks of less fortunate voyages. Numerous full-service OMOA member marinas offer rental boats, supplies and dockage.

Trent Canal - Gamebridge to Trenton

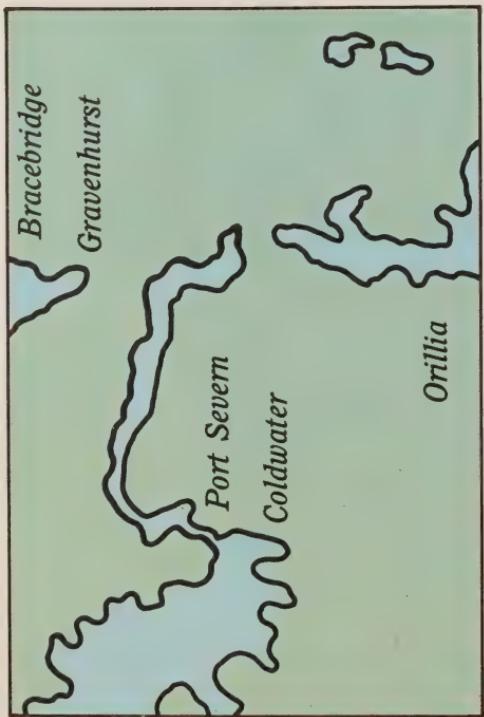

Originally a trade route, the Trent-Severn Waterway has been skillfully developed to serve recreational boaters almost exclusively. Marinas, stores, accommodations, boat and houseboat rentals are amply provided. Fishing and swimming options are always close by, and one of the dozens of locks is the world's largest hydraulic lift lock.

Trent Canal - Lake Simcoe to Port Severn

This sheltered water highway covers 384 km in all, and this is the most rugged sector - in terms of scenery, that is. Your cruising is made smooth by numerous locks, and you won't forget the ride on the Big Chute Marine Railway. The explorer Champlain was quick to appreciate the fine cruising this area offers. He would certainly be overwhelmed by the services available for today's boaters.

Muskoka, Haliburton

Among the world's most celebrated lakelands, these scenic highlands have been a playground for generations. The last ice age carved dramatic landscapes that now offer a wide range of vacation amenities. Lakeside sights include fine wooden boats lovingly restored and preserved. For the visitor, rentals of all sizes can be selected from among a large number of OMOA member marinas that have served vacationing families for decades.

MARINA ENVIRONMENTAL CODE OF ETHICS

Boaters, please work with us to

Protect our Ontario waterways from harmful dumping

Return all bottles, cans, paper, plastics and other waste to shore for proper disposal or recycling. When possible, clean up after those who are less thoughtful.

Use environmentally compatible materials

The OMOA encourages the use of non-contaminating products in boat operation and maintenance.

Maintain our clean water heritage

Help this marina achieve its goal of preventing the release of waste into sensitive waters.

Respect operating regulations

Adhering to speed restrictions helps avoid wake damage to shorelines and property. Unnecessary noise can be offensive.
